

### 1. Before Going To School

Check your child for symptoms before school (like fever, cough, flu, sore throat or breathing difficulties).

Do not send children to school if they have any of these symptoms or if they have a fever of more than 37.5C.

Make sure your child has a sanitizer and a face mask with them to keep them safe.

### 2. At School

Temperature of all students, teachers and employees will be taken when entering the school.

Any student with a temperature of 37.5 or higher will be isolated. Parents will be asked to collect their children if this happens.

Outdoor activities like assembly and recess are prohibited.

Disinfect surfaces like doorknobs, tables, and desks regularly

Class windows must be kept open, fans and AC's running to increase ventilation

### 3. During School Hours

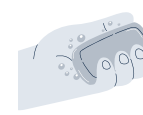

Each class will have between 10 and 20 students depending on the class size.

Each desk will be arranged at least 1 meter apart in the class. Wherever possible plastic shields will be placed around the desks for extra protection.

Students must bring their own stationary pens, pencils, erasers and pencil sharpeners. No sharing of items will be allowed.

Students must remain in their allocated seats. They must not share desks or chairs. Movements between classes is not permitted.

All food and water must be brought from the home. Only water refills will be available in school. Lunch will be eaten in the classroom.

Children must wash their hands or use a sanitizer before entering the class, before eating and before leaving the school.

### 4. Going To The Washroom

Students must wash their hands when they go to the washrooms. Soaps and hand sanitizers are provided in school washrooms.

### Stay Home If...

- You are **feeling sick**
- You have a **sick family member** at home

### Things to Remember

- Remind your child of the importance of wearing masks in school.
- Remind your child that shaking hands, hugging or sitting too close together is to be avoided at this time.
- Remind your child to avoid touching their face and to use their elbow or tissues to cover their coughs and sneezes
